PREFERRED THERAPY PROVIDERS, INC. COMPLETES NEGOTIATION OF VENDOR CONTRACT WITH RAINTREE SYSTEMS, INC.

Phoenix, AZ, May 3, 2011
Preferred Therapy Providers, Inc. (Preferred) announced that it has signed Raintree Systems, Inc. as a preferred vendor for their national network of physical, occupational, and speech therapists. Under the contract terms, members of Preferred's network receive a discounted rate on software programs.

Raintree Systems, Inc., headquartered in Temecula, CA, is a technology company that provides value based solutions for the healthcare industry. They have been developing and delivering healthcare software solutions since 1983. They provide complete practice management and electronic medical record software to a broad range of healthcare specialties and industry segments. Their software solutions include features in high demand today such as provider dashboards, credit and debit card processing, collection tools, document routing, faxing, secure encrypted emailing, secure remote access, shadowing or monitoring, secure messaging, secure online patient portals, electronic eligibility verification, automated report generation and encrypted email distribution and many others.

"We are excited to partner with Raintree Systems, Inc., and promote this unique total practice management system to our network providers", states Christy Beauchamp, Vice President of Preferred. "We strive to bring relevant products and services to our Network Members that enable them to operate their practices more efficiently and cost-effectively."

Founded in 1992 and based in Phoenix, Arizona, Preferred's business model allows flexibility in contracting between private practitioners and various health plans and organizations. Preferred assumes responsibility for primary source verification of all practitioner elements that meet or exceed those required by nationally recognized standards, thereby reducing time, cost, and paperwork for both the PPO and provider. Currently, Preferred represents over 1200 clinics in 35 states and over 2800 individual therapists, serving more than 60 million members.
